INDEX - HERBICIDES

Nomenclature is based on the report of the Terminology Committee of the Weed Society of America (WEEDS 12:328-332) and subsequent reports of this committee. Herbicides are indexed according to the common name if one is available. If no common name is available, herbicides are indexed by temporary designations, appropriate code numbers or by chemical name, in that order of priority. Names beginning with numerals are indexed as if the names were spelled out.
